BIKE EDUCATION COURSE
Connect bike education course to existing skatepark. Create bike education course with, T-intersections, roundabouts, give way signs, stop signs and pedestrian crossings surrounded by shade trees & seats

SKATE PARK
Retain existing skatepark with launch ramp, bank ramp, fun box with hybrid ramp and flat top. Retain signage, surrounding irrigated grass and fixed rubbish bin.

WHEELABLE PARK
Connect existing skatepark with proposed pump track/ combination BMX track and bike education course. Develop central gathering space with shelter, BBQ, picnic settings and drinking water

CARPARK & PEDESTRIAN ACCESS
Retain existing 34 space carpark & improve pedestrian access to carpark from skatepark. Create footpath connection to township

SECONDARY ENTRANCE
Asphalt driveway with with gates controlled on ticketed game & show days

HOCKEY CLUB FACILITIES
Construct change facility/ toilets/ shelter/ kitchenette/ verandah for viewing/ storage & office. Provide lighting of fields, protective fencing, steel seating and improve surface with a turf hockey field surface/ irrigation system. Provide sand play and seating opportunities with natural shade. Hockey Club Facilities and associated infrastructure to be designed in accordance with Hockey Australia Standards

PRIMARY EXIT
Game day / Show day exit

STADIUM
Upgrade interior of sports complex - gym, stadium, squash, basketball & badminton

PUMP TRACK
Create pump track with connection to main pathway system and bike education course with shared access to facilities. Encourage design of track to cater for a range of users including bikes, scooters, skateboards and inline skates

PLAY SPACE
Enhance existing play space and provide opportunities for a variety of play for all abilities and ages. Enhance area under existing trees for nature play activities. Support social connection and seamless pedestrian connection

BASKETBALL COURT
Replace existing netball courts with basketball linemarking and reversible goal.

PRIMARY ENTRANCE
Proposed new location of ticket box with power and NBN connection

Pine tree windrow to be retained

CARPARK
Opportunity for formalised carparking with accessible pathways connecting to fields and facilities

SHOW FACILITIES
Side show alley location. Remove existing toilets and playground. Regrade landform to create inviting landscape with future shade trees and carparking. Relocate Animal Nursery shed adjacent Ag Pavilion

PUTTING GREEN
Synthetic putting green with multiple holes

GOLF DRIVING RANGE
150 -200m driving fairway with potential need for screen planting and fencing

GENERAL NOTES

Continue to support unformalised carparking around oval as per existing arrangements

Maintain legacy planting of indigenous vegetation to provide an ongoing healthy environment

All sporting facility upgrades to be designed in accordance with the relevant governing best practice guidelines: Hockey Victoria, Netball Victoria, AFL Victoria, Cricket Victoria, etc

NETBALL COURTS
Relocate 2 netball courts & 2 tennis courts to meet match standards. Provide standard runout & fencing. Renovate existing hub to provide netball change facilities and viewing of netball. Lights, player shelters & optional shelter over courts. Provide a landscape setting with irrigated lawn, shade trees and low key natureplay activities.

Tennis courts to remain on Baker Street, but could potentially co-locate here in the future if required

WALKING TRACK IN OPEN WOODLAND
Formalise walking/ running/ cycling tracks to extend opportunities for running/ shared trails & cycling. Provide solar powered lights and regular seating opportunities

HUB
AFL and Netball Australia Facilities Guidelines to direct redesign of clubrooms & change facilities to become compliant. Including Netball change facilities & disabled toilets. Additional storage facilities for multiple sports. Partitions in away change rooms/ replace urinals with cubicles. Install solar panels and create a mural on rear wall of bar

CRICKET PRACTICE NETS & KICK-ABOUT AREA
Cricket Practice Nets to be designed in accordance with Cricket Australia guidelines. Potential location adjacent irrigated kickabout oval. Path, seating, shade trees and additional storage as required

GUN CLUB
Relocate shot gun club to rifle range

OVAL
140x170m
AFL goal posts - southern goals with fence
Cricket - synthetic grass with concrete edge
Wire mesh fence/ irrigation rail and seating
Graded oval with irrigation

GOAL POSTS
Upgrade to AFL approved goal posts

HOCKEY FIELD
62x102m
Graded field with irrigation & lighting

HOCKEY FIELD
62x102m
Graded field with irrigation & lighting

OPEN WOODLAND AREAS
Mixed indigenous and planted woodland
