

## Planning Advice Request Form WEST WIMMERA SHIRE COUNCIL

West Wimmera Shire is keen to assist development in line with the West Wimmera Planning Scheme. Planning advice can be legally binding, so it is important that this is provided in writing and based on a clear written description of what is proposed. **Planning advice can only be provided by a delegated planning officer.** Planning permits are separate to those issued under Local Laws, Building or Environmental Health.

To make a valid assessment of planning permit requirements and associated permit fees; sufficient detail is required. The planning advice may vary depending on the type of buildings and works, the use, the address, setback distances, size of property or parcel and the zones and overlays that affect the land.

Please note that there is currently no charge for this service. Priority is given to processing existing planning permit applications, so provision of advice is generally undertaken within one to two weeks of receipt. If advice is required in a shorter timeframe we would suggest employing one of the following: A Planning Consultant, Architect, or Licensed Land Surveyor.

The following information is required to be able to provide general advice regarding planning permit triggers, requirements, and fees. A planner may contact you to request further information or detail to be able to make an assessment.

Please fill out *one request form for each development proposal* (Example: For an inquiry regarding both an extension to a dwelling *and* operating a business from the dwelling, fill out one inquiry form for each proposal – One for an extension to a dwelling, and one for use as a business).
